No flowers, no honey

Honey bees visit 2 million flowers in order to create 1 lb of honey.
Plant for pollinators

Here are some plants you can plant for our pollinators:

- Purple Coneflower
- Sunflower
- Wild Geranium
- Swamp Milkweed
- Purple Prairie Clover
- Beebalm
- Oregano
- Aslike Clover
- Stiff Goldenrod
- Catmint
- Hawthorn
- Wild Lupine
- Goatsbeard

Draw a picture of what you’ve planted for pollinators and share on social media using #NoFlowersNoHoney.
